ESPACIOS CON ALMA

Spaces with soul
Espaces avec âme
有灵魂的空间

(ES)

Intensos o suaves, neutros o determinantes, los colores son el alma de un espacio, llenando de personalidad las formas. En los espacios interiores el color adquiere una importancia primordial a la hora de definir el ambiente deseado, despertando sensaciones y emociones visuales, y en la percepción espacial, acercando o alejando paredes, ampliando o haciendo más acogedoras las zonas.

(EN)

Intense or soft, neutral or determinants, the colours are the soul of a space, filling the forms with personality. In interior spaces, the colour is of paramount importance in defining the environment that is intended, arousing visual sensations and emotions, and the perception of space, approaching or furthering apart walls, expanding or becoming more cozy areas.

(FR)

Intenses ou douces, neutres ou déterminantes, les couleurs sont l'âme d'un espace, apportant aux formes une personnalité. En espaces intérieurs, la couleur assume l'importance primordiale dans la définition de l'environnement que l'on prétend, réveillant les sensations visuelles et émotions, et pour la perception spatiale, approchant ou éloignant les murs, grandissant ou rendant les zones plus hospitalières.
